Ayer's Pills

Are particularly adapted to derange ments of the digestive apparatus and disorders of the blood. In the whole catalogue of human maladies no one class of diseases can be found which will not yield promptly to the operation of these Pills when taken according to the directions which accompany the box. They are sugar coated, so that the most sensitive can take them pleasantly, and they are the cheapest pill that can be used, as they are the most effectual in their cures. Every dose is effective for good. No one who knows the composition of these Pills will hesitate to employ them in any case where a cathartic is required, or to recommend them when asked for a safe and reliable purgative. Prepared by

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $100; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40, 12th, $30; 13th, $20; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remember to send twenty-six cents extra on each year's subscription to pay the U. S. postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies, for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $20.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding. It contains annually from 500 to 600 finely executed Engravings, and notices of American and European Inventions, together with an Official List of American Patent Claims, published weekly, in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific Journal as a reliable Encyclopedia of Useful and Rentertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry! and you will seldom need a Physician!

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff and brash; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting with different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the nutrient properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

2. THE EDINBURGH REVIEW (Whig.)
3. THE NORTH BRITISH REVIEW (Free Church.)
4. THE WESTMINSTER REVIEW (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British Publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Chlorotypes and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, celebrated chemist and author in the British army. It is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Messrs Brothers, extensive and skillful photographers, 253 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note protected on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records always to be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not affect it. The properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper, at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall Street, New York.

It is noticeable that Gov. Walker—(who although standing up for the popular sovereignty pledges of his party, in order to save the party from destruction, is still a Southern man in feeling)—repeats the statement that slavery cannot gain any foothold in Kansas on account of the climate, and even calls it a 'delusion' to suppose there is or ever has been any danger of it. Some Southern Senators made the same allegation when the Nebraska bill was under consideration—but it was then understood as thrown out merely to quiet the apprehensions of the friends of freedom, and enable the slaveholders to colonize the Territory without opposition. The best evidence that those southern men did not believe what they then said, is the fact that southern men have since made such a determined and desperate struggle to make Kansas a slave State. This proves that they did not regard the climate of Kansas as an insuperable obstacle to the progress of slavery there. And there are other circumstances which show that the design at least of doubtful character. Kansas is in the same latitude with Missouri, and its agricultural capacities are doubtless about the same. Slavery has steadily increased in Missouri, and slave labor has been as profitable there as in many parts of Kentucky and Virginia. The author of the "Progress of Slavery" says that "Missouri in climate and productions is equally adapted to slave and to free labor." The same may undoubtedly be said of Kansas. The principal part of the slaves in Missouri are in the central portion of the State, and on the northwestern frontier, *directly along the borders of Kansas*. Are we to suppose that in merely crossing the line from east to west, the climate becomes so much colder that slavery cannot live and thrive? ... But we know that slaves have lived and rapidly increased, and that the influence of slaveholders has controlled the legislation and politics of the State, and will continue to control it until the *commercial* element, which sees its prosperity in the trade of free regions, becomes predominant. In 1820 there were 10,222 slaves in Missouri; in 1830 there were 25,091; in 1840 there were 58,240; in 1850 ... to 87,422; and in 1856 they were estimated at over 100,000. This has been the progress of slavery in Missouri—mostly in the western part of the State, alongside of Kansas. The facts have not to be thus increased so rapidly in Missouri as the free population—but still it is sufficiently enough to show, that the institution has been and can be profitably maintained in that State. These facts are a better basis for forming a correct judgement, than any mere theories, ... the cause of slavery, it will in our judgment be by the determined vigilance of the people to exclude it—not because there is ... in other slave States that a very small body of slaveholders compared with the whole population, are enabled, when once fairly established, to control the whole State, and give its influence in favor of the extension of the institution.

The Indemnity claimed for the Greytown ...—The President, in reply to a resolution of the Senate, transmitted to that body the correspondence which took place nearly a year ago in reference to the bombardment of Greytown. Count Sartiges, it appears, asked indemnity for actual losses sustained by the French subjects, who, he says, found it physically impossible to remove their goods from the conflagration, caused by the movements of the commander of the U. S. sloop-of-war Cyane. Gov. Marcy, in reply, informs him that the President has not been able to find upon the principles of right, or even of equity, the reclamation can be sustained; and in a later dispatch, expounds to him the international law. Count Sartiges acknowledges its receipt, and says he will not fail to send Gov. Marcy's communication to the French government. No response to the letter is embraced in the documents.

LOCAL AND MAINE NEWS.

At the Police Court, on Saturday, Hezekiah Lamont complained of one Daniel Haggerty for obtaining of him four goods upon false pretences—Haggerty having given in payment a Grocers' Bank bill, and declared it to be of par value. The Court fined the defendant $10 and costs—from which he appealed.

Surprise Party in Hampden.—We learn that the house of the Rev. J. K. Mason, at Hampden Upper Corner was entered on Christmas Eve, while the family were on a visit to a neighbor's, and the pantry filled with a large stock of provisions. A box full of valuable presents was also brought, including a handsome sum of money. Nearly all the members of his Society, as well as his neighbors generally, were implicated in this proceeding. The ladies, as we understand, rolled in the barrel of flour. The Rev. gentleman, when he returned, caught the conspirators just as their work was completed; but although he was himself greatly surprised, the perpetrators appeared in no manner confused at their detection. Mr. Mason was deeply affected at this mark of confidence and affection, and expressed his appreciation of the testimonial in a brief but appropriate address.

A Golden Wedding.—Mr. John Reynolds, one of our venerable citizens, having married his wife when she was fourteen years old, celebrated with her and his family and connections the fiftieth anniversary of the wedding on Thursday evening. The meeting was a happy one.—*Union.*

Indications of Revival in Business.—The boot and shoe manufacturers of Lewiston are resuming operations—and a portion of the looms in the Bates mills which were stopped in October, have commenced running again. The new cotton mill will commence operations in the Spring—and the work on the Bleachery will then be resumed. The boot and shoe manufacturing has been carried on extensively in Lewiston. The Journal thinks that there is a good time a coming.

Lumber Business in Ellsworth.—The American repeats its statement (denied by a correspondent of the Boston Journal) respecting the increase of operations this winter. It says:

Upon further inquiry, we find that the number of teams now in, and to be sent, exceeds that of last winter by from 15 to 20. It will exceed that of year before last, and come nearly up to that of any preceding year. At any rate, there will be lumber enough cut to stock all the mills, and there are as many saws as ever, with the exception of one gang and three single saws. With the improvements made in the Mills, Black's mills, we think very nearly as much lumber can be manufactured now as at any former period. The lumbering men now in the business are as well, if not better, prepared to successfully push forward their operations than ever before. And all those who are usually engaged in the business of hauling by the thousand, or employed as choppers, &c., are now at work. The largest operator on the river says he does not complain at this season's business. And within a few days he has made sale of 20,000 boxes at 55 cts., and they have been made on contract here for from 40 to 45 cents.

The young men of Rockland have a Society called the Forensic Union, before which private lectures are delivered during the winter evenings. Last week a lecture presenting a historical view of the lives and characters of Tiberius and Caius Gracchus, was delivered by R. P. E. Thatcher Esq.

Washington Rumors.—The correspondent of the N. Y. Commercial says:

"If Gen. Denver should really succeed in his object of persuading the Free State men or others to vote down the slavery article of the Lecompton Constitution, there will arise great excitement here. Parrott thinks a collision between the Free State and pro-Slavery men inevitable."

A dispatch to the N. Y. Post says:

"The President declares that he will enforce the Calhoun Constitution in Kansas, though it should require the withdrawal of troops from other posts to do it. This news produced great excitement here. Parrott thinks a collision between the Free State and pro-Slavery men in Kansas now inevitable."

The Herald's correspondent says:

"Should Commodore Paulding attempt to exercise any jurisdiction over Walker, in the waters of Nicaragua, Messrs. Stephens and others, of Georgia, Pitman of Mississippi, and others, threaten war upon the administration. There are lively times ahead."

The half State half Territory of Minnesota is considerably bothered just now to know who is who. What with Indian voting and doctored returns, they new State cannot decide whether Ramsey or Sibley is elected Governor; so, to cut the gordian knot, Mr. Buchanan's *Territorial* Governor, Sam Medary, steps in and delivers the first annual message of the *State* Governor. The Republicans in the Senate, 17 in number to 19 Democrats, protested against the recognition of Medary as State Governor, but the other side went ahead, and both Houses met in Convention on the 11th, to hear Medary's speech. In convention, a motion to appoint a Committee to wait upon Medary, the vote was 29 to 47. The message, which was then read, is devoted altogether to the internal affairs of the Territory State, and is considered a fair and liberal document. Mr. Gorbach, Dem., of The Pioneer, was elected State Printer by a vote of 49 to 47. A Democratic caucus of the Legislature on the 11th nominated Gen. Shields and Henry M. Rice for United States Senators. ... Minnesota is in full progress, and the chaffering ... —*Tribune.*

"Saved by the Hoop.—A young miss of Northampton, was indulging in the delightful sport of skating, on a small water near the city, and ... where the water was twelve feet deep, and as she went, she being surrounded by a most fashionable array of hoops, which made quite a wide ring around her on the neighboring ice, she was saved from sinking far below her waist. Another girl came to her rescue, and she was saved. Had it not been for her hoops, her chances would have been very poor.—*Manchester Mirror.*

A boar was caught in a trap at Northfield, Vt., recently, and to save dear life he gnawed off the paw that held him to the savage instrument; being no surgeon, however, he neglected to tie up the arteries, and his pursuers readily followed the trail of blood for five miles, when they easily overcame the panting fugitive, exhausted as he was by the loss of the vital fluid.

There is nothing funnier in cockney vernacular than Jeames's letter, according to the veracious historian, Thackeray, when he is in doubt which to prefer of his two lady loves, Mary Hann or Hangelina. He writes, "There they stood together, them two young women. I don't know which is the amoroust; I couldn't elp comparing them; hand I could't elp comparing myself to a certain Hannimile who found it difficult to make a choce betwigst 2 bundles of A."

John Highland was fatally stabbed at Niagara Falls, recently, by a thief whom he caught in the act of robbing his clothes line. Highland died in a few minutes. The murderer was arrested, and at his house the officers found several thousand pieces that he had stolen from clothes lines.

At an examination of the College of Surgeons, a candidate was asked by Abernethy, "What would you do, if a man was blown up with powder?" "Wait until he came down," he coolly replied. "True," replied Abernethy, "and suppose I should kick you for such an impertinent reply, what muscles would I put in motion?" "The flexors and extensors of my arm, for I should knock you down immediately." He received a diploma.

On his death-bed, a distinguished humorist requested that no one might be invited to his funeral, "because," sighed the dying wag, "it is a civility I can never repay."

[From the Aroostook Pioneer.]

To the whole People, Everywhere.

Americans, Germans, Englishmen, Scotchmen, Irishmen, Frenchmen, Dutchmen, Swedes, and all the people that are good for anything, where are you? What possesses you to turn from one of the most fertile regions, where vigorous health and genuine enjoyment are to be had in the Aroostook, for the miasma, fever and ague, bad water and fictitious pleasures of the West?

You are allured by the representations of speculators, by the high sounding names of slab cities, with here and there an inhabitant; by the reports of fortunes (as ly made, into the monstrous prairies of Illinois, Wisconsin, Minnesota, &c., and there you struggle with hardships in getting started, with the diseases of the country and with bad living. Your old friends, in fact, without hope. For years children are without the means of education; opportunities for public religious instructions you have not. You are thrown adrift upon the wide world without compass or chart, without friends, in fact, without hope. For years you lament your folly in removing so far from civilization, though it is true that in time you become accustomed to your situation, and make up your mind to die upon the spot where you have known so much sorrow.

What have we to say for the Aroostook? We have a healthy climate—not more severe than the climate of Minnesota and much of Wisconsin. We have a soil as fertile as man can desire; we have facilities for acquiring wealth, as good as those of any part of the country, combining ourselves to legitimate business. We are in a land of schoolmasters, and teachers of religion. We have temperate and healthful amusements, and, without boasting, we have some of the most intelligent, athletic, well built, fine looking men, and the most highly cultivated and handsome women, of any part of the country in the United States.

Have we not a good deal to say for the Aroostook? Come up here. We have cities equal—ay, larger, than many of the famed cities of the west, although we are not so brazen-faced as to call them cities. We have rivers, and mill-sites; we have mines, unlaid, valuable as yet, but mines of wealth inexhaustible.

The State must build a railway from Mattawamkeag through this region, so that we can get into the American market without going down the river St. John.

in counterfeit bills and a large quantity of bogus coin. Some of the bills were yet in sheets—having just come from the mill. Some letters were also found on him, which show that he is connected with the West Troy concern. The prisoner was taken to jail. Soon after he was placed in confinement, another officer succeeded in making an arrest of another member of the interesting party. He too was taken to jail and locked up. Their names are Solomon Van Guysling and Henry Mills.

A New Experiment in Agriculture.—I tried a curious experiment with a few potatoes this season. Some twelve months since I saw a letter from a farmer stating the great success that had attended an experiment the writer had made in the previous season. It consisted in inserting a pea in every potatoe set, and planting the potatoe in the usual way. The result, he stated, was a large yield of peas and a splendid crop of potatoes; but the most important result was the entire freedom of the potatoes so treated from any disease, while all those planted in the usual way in the same field were extremely deteriorated. I was led by this statement to try the experiment on a small scale in my own garden this season. I planted not quite half a peck, only fifty sets, in six ranks, cutting a piece out of each, and putting a pea firmly in. The peas grew up and flourished well, and last week I dug the potatoes. They were perfectly free from the slightest taint or speck of disease, and very fine and large; while in the same bed close to them was another lot planted in the old style, nearly half of which were rotten. I leave your readers to draw their own conclusions.—*Letter in the Agricultural Gazette.*

Change of Japanese Policy.—One of the most important events of the day is the reported relaxation of the exclusive policy of Japan, so that she will ultimately take her place among the trading nations. The intelligence, mainly coming from the Russian Plenipotentiary to China, appears to be well supported. It is stated that while he was stopping at the port of Nangasaki, he was informed by the Governor of that place that it was the intention of the Japanese Government to pursue an entirely different course regarding intercourse with foreigners; that their policy was to be the opposite of what it had heretofore been in everything relating to the above. It was now very desirous of cultivating relations with all of the great maritime powers, and it was the intention of the Government to send Ambassadors to represent the nation abroad.—*Boston Jour.*

National Faith.—We have thought, says the Pittsburg Gazette, that a fine subject for a painting to decorate a pannel in the new House of Representatives, at Washington might be found in this:

President Buchanan, holding his Ostend Manifesto in one hand and that portion of his recent Message against fillibusters in the other, while in the background (let it be a spirited painting) should appear the sloop-of-war Saratoga, with the Fashion running under her stern within a half-gun shot and Walker landing his guns, munitions and men on the sand within hail of the U. S. flag. Under the picture write in large characters—"National Faith."

The Hartford Times tells of a man who objected to having Christmas boughs taken from his farm, and demanded five dollars of the ladies who were dressing the church. It was finally settled by the pastor offering to marry him for nothing—it having been ascertained that he was preparing for that interesting event, which was agreed to, and the controversy ended.

[For the Whig and Courier.]

"She Lives whom we call Dead."

She came to us, a gift from God,
One blessed day
When earth was clad in tender green,
To welcome in the May—
We knew the soft and gentle light
That round her shone
Was but the smile of Him who gave,
The High and Holy One.

We watched her dimpled, baby face
With tender care,
And noted that the summer days
"Beheld her grown more fair"
Than fairest flowers—and not one laid
A radiant crown
Of beauty on her gentle head,
That angels might have worn.

Our darling's lisping, broken words,
Her music song,
And spring-time warbling, in our hearts
Will softly echo long—
Nor will the richer, deeper notes
Of her life's June
Efface from memory's unsunned page
The old familiar tune

Which first she learned, a tiny child,
On father's knee;
Catching from him the melody
With earnest, rapturous glee.

It seemed no earthly stain could mar
Her pure, white soul,
That saw beyond life's heavy clouds
The bright Elysian goal;
And when God's angels came for her,
She sweetly smiled
And said, "The Everlasting arms
Of Mercy hold thy child"—
They bore her through the "covered bridge
Leading to Light,"
Where suns are not needed, and there
Are no more clouds, nor night.

God gave His meekly trusting child
Sweet sleep and rest;
She needs no longer our fond care,
But leans on Jesus' breast,
And walks with Him by living streams,
In fields above—
While with the white robed throng she sings
Of Christ's unbounded love.

STANLEY HOUSE, WATER STREET....AUGUSTA, ME.

G. W. RICKER would respectfully announce to the Traveling Public, that he has re-opened the *Stanley House*, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every necessary arrangement to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

A VOICE FROM CINCINNATI.

Dr. R. RICHARD CLAY,

The celebrated curer of all Diseases of the Lungs, Throat, Liver, Kidneys, Spleen, Urinary Organs, Nervous System, and Female Complaints, would respectfully announce to his friends in Maine, that he has taken that beautiful Office, No. 40 West 4th Street, Cincinnati, Ohio, where he can be consulted by letter, by simply describing the symptoms, stating age, sex, occupation, and whether married or single. No charge for consultations by letter.

Dr. C. has made arrangements with his chemist in Maine, to forward his "Inhaling Fluid," for Diseases of the Lungs, and in fact all of his remedies which have been attended with such wonderful success in the various kinds of chronic diseases, to all of those patients who inhabit New England's changing climate, for whom Dr. C. may prescribe, thereby saving the cost of transportation from Cincinnati. SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is imagination. Of course they assign any thing but the real and philosophical reasons,—Inflammatory Rheumatism, Gout, Palsy, Burns, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frosted Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething children are now often cured in from 5 minutes to a few days simply by the imagination. Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily.

Large Bottles Ten Times the Cheapest. KEEP WELL CORKED.

TO THE DAILY WHIG AND COURIER

Later From California.

ARRIVAL OF THE

NORTHERN LIGHT.

NEW YORK, Dec. 27.

The steamship Northern Light, from Aspinwall the 19th inst., has arrived with the California mails of the 5th inst., 250 passengers, and a trifle over $2,000,000 in specie. The steamer Golden Age brought down 350 passengers and $2,478,000 in treasure.

Gen. Walker is a passenger in the Northern Light.

The U. S. Flag Ship Wabash arrived at Aspinwall, on the 14th, with Gen. Walker on board and all the arms and ammunition captured at Punta Del Norte.

On the 4th Fort Castillo and the steamers La Virgin, Bolivar, C. Morgan, and Ogden, were taken by Col. Anderson, and 50 men.

On the 8th, Gen. Walker, and all his men surrendered prisoners of war to Commodore Paulding. On the 12th, the frigate Saratoga sailed from San Juan for Norfolk with 160 men of Walker's army. Gen. Walker was sent to New York on parole. Capt. Eggie, of the Wabash, also comes as bearer of despatches. The sloop of war Decatur was at Panama.

Gen. Martinez had been elected President of Nicaragua, and was inaugurated on the 15th of November. Active preparations had been made for an energetic war on Costa Rica, which power has manifested a desire to arrange matters. Costa Rica had sent 400 men against Anderson.

The steamers had been turned over by Gen. Walker to Garrison and Morgan, but the C. Morgan, the only one that came down the river, was seized by Commodore Paulding and put in charge of the American Consul at Greytown.

Col. Anderson was still at Castillo; he had three months provisions, 9 pieces of artillery, which he captured from the Costa Ricans, with abundance of ammunition.

The Panama Herald states that the Wabash landed 350 men and captured Walker.

The news from California is unimportant, except as to the mining interest.

San Francisco Market.—Flour very firm at $12 for superfine, and $13 a $13,50 for extra. Gallego and Haxall. Barley and oats dull at $1,66 for the former and 24 for the latter. Provisions quiet at about former rates—Pork steady; beef tending downwards; candles and American spirits much depressed, and being forced upon the market at a heavy loss; boots and shoes, dry goods, coal and sugars are in good demand and prices well sustained; prints of desirable styles much wanted. Small parcels of Rio coffee sold at 11 a 12 cents; mackerel not strictly No. 1 sold at $80; salls lower, keg assorted sold at 3½ cents.

Heavy rains had fallen in the interior, retarding trade and imparting new vigor to the mining operations.

At San Francisco, business was generally very quiet. The money market was active; merchandize loans are made at 3 a 3½ per cent per month; bankers' bills have sold as low as 10 per cent discount on Boston and New York.

The receipts of gold from the mines was steadily on the increase, though there was some scarcity of water.

Mexican dollars commanded 16 per cent premium.

The United States branch mint was re-opened on the 23d Nov., and was doing a heavy business.

Sight drafts on New York 3 per cent premium.

The financial condition of California was improving; there were over $100,000 in the State Treasury.

Two respectable citizens of Stanislaus Co., Aaron Bird and a Mr. Robinson, had been mysteriously murdered.

The ship Aurora had cleared for China with 500 Chinese passengers.

From South America the dates are, Callao Nov. 29, and Valparaiso 15th.

A clerk in a business house in Santiago, Chili, had committed frauds to the amount of $100,000.

In Valparaiso, Mr. Bernal, a retailer, had forged bills to meet his liabilities, to the am't of $100,000, and committed suicide.

The Chilian Congress had passed a law authorizing a loan of seven millions of dollars, for the completion of the Valparaiso & Southern Railroads.

The Chilian war steamer Esmeralda had sailed under secret orders to Cobija, for the purpose, it was surmised, of claiming an American vessel seized by the Brazilian authorities in the port of Santa Maria, the right of sovereignty over which is in dispute between Bolivia and Chili. The affair of the seizure of the Sp itzmen is not yet settled by the American Minister.

The revolutionary party in the Republic of Bolivia have entirely triumphed. Dr. Linares is acknowledged provisional President and Gen Cordova, the ex-ruler, has fled from the country.

PERU.—Another revolution in Lima had been nipped in the bud, and the principal persons connected with it have been arrested, and at 3 o'clock on the morning of the 20th, Gen. Castillo and several others were brought to Callao and sent on board the Government steamer Ucayali, previous to their being sent out of the country. Vivancho's party is in possession of the Chinchha Islands.

The ship Andalusia was ashore in Callao Bay, but would be got off.

From Washington.

WASHINGTON, Dec. 26.

The War department this morning received despatches, confirmatory of previous advices, that all the troops of the Utah expedition have concentrated near Fort Bridger, in a comparatively comfortable condition.

Later.—The Secretary of War this afternoon received a telegraphic despatch from Lieut. Gen. Scott, from New York, in which he says he has good news from the Utah expedition. Colonels Johnston and Smith with their trains were up with Col Alexander, who were marching upon Fort Bridger, which was only 13 miles off, on Nov. 7th. The troops were in high spirits. Just enough snow had fallen to protect the grass from fire.

Letters were to-day received at the State Department from Chief Justice Williams, of Kansas Territory, giving a detailed account of disturbances which have taked place in the vicinity of Fort Scott. According to this account, a body of 100 free State men, armed with rifles and revolvers, under the command of one Montgomery, had been committing outrages in the above named locality, and when a Marshal proceeded to arrest them, under a law process, they resisted his authority, stating that they had advices from Gen. Lane that all the Territorial laws had been repealed by the Legislature. At the last accounts, they were besieging Fort Scott and threatening to burn it.

From Kansas.

LAWRENCE, K. T., 26th.

Times correspondence. The Legislature adjourned this morning. Nearly all the bills have been lost. Only the acts repealing the law for the Constitutional Convention, and for submitting the Constitution, have passed. Stanton vetoed the militia law, and it was passed last night over his veto, principally owing to the late news from Washington, and the fact that they are fighting in Bourbon Co. Three or four men are reported killed on the Little Osage. Some 160 pro-slavery men, many of them Missourians, are warring upon the free-state men, under Major Abbott. The troops have been sent for but will not go.—Stanton's successor is here. The horizon is gathering darkness again.

From Mexico.

St. Louis, Dec. 25.

The steamship Tennessee has arrived here with dates from the City of Mexico to the 17th inst. Another revolution broke out on the 10th inst. The garrison at Tacubya pronounced against the dissolving of Congress the overwhelming of the Constitution, and the declaring of Comonfort Dictator.

Vera Cruz follows the example, and it was expected the rest of the States would also do so.

Later accounts from Yucatan state that the re-actionists had captured Elsel, which again was retaken by the government troops.

Resumption of Specie Payment.

NEW YORK, Dec. 27.

It is understood the Rhode Island banks will resume the redemption of their bills at the Suffolk Bank, Boston, on or about the 11th of January.

Destructive Fire!

ANOBURN, Ga., Dec. 27.

The Selma (Alabama) papers announce a destructive fire in the town of Marion, Ala. An entire block, including the Perry House, Printing and Law Offices, Drug, Book and Merchants' Stores were consumed. Loss stated at $50,000.

Ship News.

BALTIMORE, Dec. 27.

The schr Reindeer, at St. Thomas from this port, reports having fallen in with on the 21st Nov., in lat. 23 25, lon. 64 23, the brig Golden Age of Halifax, and took from her one man named J. Nickerson, who had been wrecked 12 days.

The County Jail in Woodstock, N. B., was burnt down on Sunday night, the 20th.

The steamer Creole sunk on Thursday last when half way across the Bay; they tried to get her to St. John with the steamer Conqueror, when she went down with all her furniture on board.—*Calais Advertiser.*

DROWNED.—Mr. Warren, Thompson's Solon, on Monday last, in attempting to cross the river upon the ice, fell in, was carried under the ice, and drowned. At last advices his body had not been recovered. He leaves a family. It is said that he had one thousand dollars in paper money in his pocket.—*Telegraph.*

Several families in Pittston have had their cellars entered lately by thieves, who helped themselves plentifully from the beef and pork barrels.

CHILD SCALDED.—The eldest son of A. A. Lunt, aged about 3 years, was so badly scalded recently, by the upsetting of a tea-kettle of boiling water on to his stomach and extremities, that for a few days his life was despaired of.—*Gardiner Journal.*

We learn that a young man by the name of Charles Norcross attempted suicide by jumping into the river on Sunday last. Discouragement on account of lack of employment is the attributed cause of the rash attempt.—*Hallowell Gazette.*

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, *fresh* ground within ten days. The meal is in bags, consequently not injured by packing. 96 lbs. in shorts as in the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms. Also application to the subscriber, Office No. 27, West Market Place. Samples may be seen at the Stores of JOHN McLAUGHLIN, No. 40 West Market place, C. D. HOLT & SON, Broad Street,

WORLD'S BLESSING!

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Collroth has been at Saco for the last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, and was unable to move himself in bed, and his friends considered him dangerously sick. Dr. J. B. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheuma to Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24'57.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value. L. BILLINGS, Agent.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE, subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis' Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted, in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S

CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Bots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Botts out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (Signed by)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old.

Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay-horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bory, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 60 horses and colts, and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Flint—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on Railroad.

H. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We, the undersigned, fully concur in the above recommendation of Miller's Condition Powders.

Thrice-Weekly Age, for 1857.

We propose to issue the 21st volume of the Thrice-Weekly Age during the session of the coming Legislature.

To enable us to do this without a very *great pecuniary loss* it is absolutely necessary that our friends throughout the State, for whose gratification and benefit the publication is made, should aid in giving us a good list of subscribers.

The comparatively small number of Democratic members of the Legislature renders this service in our behalf doubly requisite this year, and we therefore confidently rely upon receiving it.

The character of the Thrice-Weekly Age is so well known, that we deem it needless to add any thing more.

The terms will be $1, in advance, for the session. Postmasters, or others, who will forward us the names of *ten* subscribers and the $10, shall receive a copy in addition.

It is very desirable that the lists should be forwarded as early as the first of January.

ELIAS G. HEDGE & CO.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful Hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

DR. SANFORD'S INVIGORATOR,

or Liver Remedy.

SANFORD'S LIVER INVIGORATOR

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of *Liver Complaint*, from the worst Jaundice or Dyspepsia to a common headache, all of which are the result of a *Diseased Liver.*

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.

A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease, and effecting a radical cure without any of the disagreeable effects felt by using Calomel, or Mineral Poison, that are usually resorted to.

To all who will follow these directions a cure is positively guaranteed: Sick Headache can be cured by the use of two tea-spoonfuls, taken as soon as the attack is felt.

The Invigorator never fails to cure sour stomach or the bad effects experienced after eating.

Bilious attacks yield readily to one bottle, and Chronic Diarrhea, difficult as it is to cure, is never troublesome to those who take the Invigorator.

For Dyspepsia or Jaundice, nothing is the known world acts so fully or cures so quickly as the Invigorator. It removes all yellowness and unnatural color from the skin.

For Night Mare, take a dose before retiring, and it is warranted a sure preventative.

For Female Obstructions it is a safe and sure remedy, as it removes the cause of the disease.

Costiveness cannot exist where the Invigorator is freely taken, while Cholera yields readily to a few doses.

It must be known that all there are Liver diseases, or caused by a deranged Liver, and to cure them needs a LIVER medicine, and one of great power.— The Invigorator is such a medicine; it has medicinal powers, never before discovered, that will cure all diseases of the Liver, no matter of how long standing, or what may be their form. The active medicinal virtues extracted from the gums used is such as to be astonishing to all who see their effects, for none can use the medicine without receiving benefit. It acts as a gentle cathartic, and should always be taken in sufficient quantities to operate on the bowels gently. The best way to take it is to take the medicine in the mouth, then take some water and swallow both together. In this way the medicine will scarcely be tasted.

TREMONT MILLS.

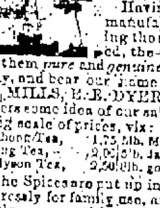
Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

No. 8 Broad, near State Street,.........Boston.



Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5lb. Souchong Tea, 1,75 5lb. Mocha Coffee, 1,10
5lb. Oolong Tea, 2,00 5lb. Java Coffee, 1,00
5lb. Y. Hyson Tea, 2,50 5lb. good Coffee, 1,00

The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

THRICE WEEKLY

Kennebec Journal for 1858.

During the approaching session of the Legislature the undersigned will continue the publication of the THRICE-WEEKLY JOURNAL, being the XIVth Volume of the same.

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

We look with confidence to our Republican friends throughout the State to aid us in obtaining subscribers. Especially do we solicit from each Republican member of the Legislature that *personal effort* in his locality without which a remunerating list cannot be secured.

The Thrice-Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings.— The price will be

Single Copy, One Dollar for the Session,

As usual, payable in advance. Any person forwarding us $8 shall be entitled to the ninth copy extra. For $16 we will send two copies extra; for $24 three copies extra.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session.— *Money remitted by mail at our risk.*

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.— Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.— There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Com'r of Patents.

The Atlantic Monthly.

NO. ONE received by D. BUGBEE & CO.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power, to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with billious complaint: see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL, if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.
